SUMMARY

I am a dedicated Computer Science undergraduate specializing in Artificial Intelligence at Jain University, Bangalore. My experiences span across event management, open-source contributions through GirlScript Summer of Code 2024, and entrepreneurial ventures in organic products. I combine technical proficiency with leadership and strategic thinking to excel in dynamic environments. Passionate about innovation, I aim to leverage my skills to create meaningful impacts in technology and business.

TECHNICAL SKILLS

Programming Languages: Python, MySQL

Tools: Git, GitHub

Other Skills: Project Management, Team Leadership, Mentoring, Sales strategies, Customer engagement, Territory Management, Goal oriented

PROFESSIONAL EXPERIENCE

Contributor | GirlScript Summer of Code (GSSoC) 2024

Oct 2024 - Jan 2025

- Collaborated on open-source projects, contributing to impactful software solutions.
- Worked closely with mentors to develop skills in coding, documentation, and team coordination.

Field Sale Executive | DROSTO

OCT 2024 - Jan 2025

- Established and scaled a business offering premium organic products, including walnuts, saffron, honey, and shilajit.
- Streamlined operations, developed marketing strategies, and managed customer relations to grow the client base.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science Engineering

Aug 2024 - Present

- Specialisation: Artificial Intelligence (AI) Jain University, Bangalore

Central Board of Secondary Education (CBSE)

Jan 2022 - Jan 2024

- 12th Standard: Science Stream | 2024
- 10th Standard: 2022

PROJECTS

Virtual Herbal Garden: Designed and developed a digital platform to simulate the growth of various herbal plants. The project combined educational resources and interactive elements to promote awareness of medicinal plants and sustainable gardening practices. Users could explore plant information, monitor virtual growth, and learn cultivation techniques.

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Bengali
- **Awards/Activities:** Nomination for Smart India Hackathon (SIH): Selected by Jain University to represent the institution in the prestigious Smart India Hackathon, showcasing innovative problem-solving and technical skills.
